Meteorological Situation

A complex Low moves towards Norway while a high pressure ridge pushes north over southern Ireland, merging with a High over Iceland. Heavy showers are expected today ahead of the High taking over. Winds veer to northerly and Showers are expected to die down in the evening, with Sunday expected to be mainly dry. On Sunday High pressure extends over the UK, while the Low remains active over the Baltic. On Monday high pressure persists maintaining fair weather. On Tuesday high pressure splits, with the southern portion remaining over west-central Europe. Meanwhile an Atlantic Low approaches from the west, its warm front crossing the UK during the day, bringing increasing clouds, rain and heavy showers in the evening. On Wednesday the Low continues to track along the Atlantic margin towards the Norwegian sea. Local conditions next 72 hrs: Wind: W-ly, veering to N, fresh breeze. Sea temperature: 10-11C.

Warnings (next 24 Hours)

Gale ● Nil
Wind Shear ● Nil
Lightning Risk ● Low
Confidence ● Low
