Meteorological Situation

Unsettled weather has arrived at Scapa Flow associated with the deep low pressure to the north. It tracks southward into the North Sea, enhancing winds well into Thursday and bringing showery weather. There is a risk of Gale winds during the night of Wednesday into Thursday. Friday, around noon, winds may abate shortly due to the influence of a ridge. Soon after, however, unsettled weather will prevail again with windy and rainy conditions due to another Icelandic Low creating a strong WSW-ly wind field. Local conditions next 72 hrs: Wind: NW-ly, near gale. Sea: moderate on 12 November around 00 UTC. Sea temperature: 11-12C.

Warnings (next 24 Hours)
