ED2 Campaign 4 Subsea Inspections

Date of Issue: 12th October 2026

PROJECT OVERVIEW

Please be advised that Socotec Land & Hydrographic Surveys (on behalf of SHEPD) will be undertaking subsea inspections across the North Coast & Orkney marine areas. Please refer to Figure 1 - Figure 2 that highlights each cable location.

Given the different conditions and water depths anticipated at each site, a range of vessels will be available for the project, detailed overleaf.

The inspection works will be centred on a 50m cable corridor, defined by the start and end coordinates listed in Table 1.

VESSEL DETAILS

The vessel conducting the works will be restricted in its ability to manoeuvre and will display the appropriate lights and shapes.

Other vessels are requested to pass at a safe speed and provide a minimum clearance of 500m (COLREGs Rule 16 & 18) during marine operations.

The vessel will monitor VHF Channel 16 throughout survey operations. Mobile contacts for the vessel are listed at the end of this NtM.
